Prerequisites

Our **Secondary Education in Germany** program is geared towards highly motivated students between 10 and 17 years of age, offering the chance to participate in regular classes in German boarding schools. The goal is to finish a school career in Germany and to graduate with the German secondary education leaving certificate *Abitur*, which at the same time is the entrance ticket for university admittance in Germany as well as a key to a successful career at home.

School attendance in a foreign country is a major challenge for students regarding both their previous school education and their personality.

Besides having to demonstrate generally above average academic performance, international candidates must also have sufficient knowledge of the German language to be admitted to a German school. This is why they are asked first of all to attend an intensive German language course at one of our year-round course centers for German as a foreign language in *Bad Schussenried* (page 10) or in *Lindenberg* (page 12).

Additionally, applicants are required to have sufficient English knowledge. French, Latin or Spanish may be required as well, even though most schools are able to accept a foreign native language as an equivalent to the second foreign language requirement at German schools. Alternatively, students have the possibility to start this additional foreign language when entering the school.

German Language Program

at the Humboldt-Institut

A good command of the German language is necessary to attend a secondary school in Germany. The minimum requirement to follow the topics of all lessons in German along with native German classmates is a completed level B2 (upper intermediate) according to the Common European Framework of Reference for Languages (CEFR).

With our special German program—which goes beyond standard German education not only in quality, but also regarding classroom topics directed towards the school visit from the very beginning—we will help students achieve the necessary German language skills in a minimum of time. The program includes small and highly intensive classes taught by motivated, professional teachers. Each student's progress is continuously monitored through weekly tests and regular level exams. What especially enhances the language learning is our “total immersion” concept: In our residential schools students do not only study German within the classroom, but also continue to improve their language skills during supervised leisure time activities in the afternoons and evenings, on cultural excursions and even during their meals.

Program Schedule

Depending on the student’s prior German level—which will be determined on the first day of the course with a comprehensive placement test—and the performance during the language program, it takes approximately two to eight months to reach the required level of German, at least the completion of Humboldt level B2.

A complete beginner can successfully finish the German program after only 25-30 weeks!

Subsequent to the general German language courses, we offer our students a school transition course focusing on the most relevant school subjects. This course helps to ease the transition between the German course and school attendance and aims at teaching the terminology and methodology of the most important subject areas taught at school (e. g., mathematics, physics, biology, chemistry, history, politics, geography, religion/ethic) as well as important skills (e. g., working with sources, summarizing texts, performing research, role-playing simulation or project work).

After having successfully completed their German program, students are transferred to the boarding school of their choice and integrated in a class according to their age and performance level.

The diagram above gives an overview of the German language program at the Humboldt-Institut.

Performance Reports

In regular performance reports we give detailed information on the student’s language progress to parents and boarding schools. The reports clearly and transparently show all aspects of the student’s performance inside and outside the classroom. They provide a clear view on special skills, the general language development and the student’s social behavior inside the boarding school community. Together with weekly in-class tests the performance reports serve as a tool to constantly monitor the student’s progress and to recognize individual problems at an early stage, allowing us to react and support students fast and efficiently.

Selection of the Boarding School

Finding the appropriate secondary school in Germany is an important topic for both students and parents. The Humboldt-Institut has a network of 40 partner schools all over Germany. Our experienced staff will guide you through the demanding process of deciding for the most suitable school before starting the German course program at the Humboldt-Institut.

For your convenience and a first overview, we compiled this brochure: It contains the most important information about our carefully selected partner schools summarized on a double page each. The consistent structure gives a quick overview and allows you to easily compare the schools. All of our partner schools have a very good reputation both in Germany and abroad.

Different Kinds of Boarding Schools

We decided to arrange our partner boarding schools in this brochure according to their location. In Germany the federal states are responsible for their educational systems. This means that educational standards, which are generally on a very high level in Germany, can vary from state to state. One major difference is the question when you graduate: after 12 or 13 years.

The arrangement according to the schools' location is also based on our wish to present them in an objective way, not giving preference to any school— especially as all schools presented in this brochure offer a very high level of education. Another reason is that the location may play an important role in choosing the right school, especially if you are looking for a school in a certain region in Germany or if you have certain extracurricular activities like sports (e. g., water sports, skiing) or cultural opportunities in mind.

Counseling Service

Our counseling team will take you through all application steps, anything from providing the necessary application forms to supporting you with important visa issues.

Please contact us to receive more information on the application process and on our intensive German courses. We will send all information necessary to process your application and help you to find the most suitable boarding school among our partner schools.

The *Humboldt-Institut Bad Schussenried* prepares international students for their studies at a German boarding school. The focus is on the following areas: reading and listening comprehension, writing skills, oral expression and grammar. Students are taught in intensive courses with 30 lessons per week (teenagers) or 25 lessons per week (juniors).

A student with no previous German knowledge can complete level B2 in approx. 6-8 months due to our "total immersion" concept, continuous progress control and monitoring as well as active daily use of the German language also outside the classroom.

Birklehof stands for an excellent schooling, which is closely related to an integrated education program and based on the unity of living and learning in a boarding school.

Education at *Birklehof* is characterized by three principles: secureness, evolvment and personal success. Within a very individual atmosphere which is shaped by warmth and mutual respect, the adolescents are encouraged to actively involve themselves into the everyday life of their school. Consequently, a sense of responsibility, social skills, independence, individual initiative as well as the ability of decision-making are fostered constantly.

Student-centered teaching is preferred to a teacher-centered approach. Thus, the individual learner is in focus, taking the active part inside the classroom. As a strong emphasis is put on activity based teaching, the students are permanently encouraged to participate actively. Examples of this kind of teaching methods are inquiry-based learning, open classes, free work, project work, future workshops, simulation games and learning by teaching. In either case, the students are guided towards building and experiencing new knowledge at the same time.

In a quiet location on Lake Ammersee we lead students on an individual path to the Bavarian *Abitur*. Small classes and motivating learning concepts are the basis of an excellent school education. The orientation towards linguistics and economics is a daily practice due to its internationality. Numerous workshops promote personal talents.

We impart a responsible attitude: that of the "*Landheim-Entrepreneur*". What is the most important a boarding school can give its students for their way through life? We believe: An attitude. Inner peace. And optimism. Children become young personalities with a strong sense of community, empathy and resource-mindedness. They will experience inner peace and assume responsibility and learn to make decisions: For themselves and their environment, for organizing and planning, for the environment and economic efficiency, for companies and enterprises. A model of tomorrow.

The *Max-Rill-Gymnasium* was founded in 1938 as a private boarding school. It is situated in a historic castle located south of Munich and it is one of the smallest state-approved grammar schools and boarding schools in Bavaria that can point to a long tradition. Given the manageable size of our school, our teachers know their students very well and can take care of them and accompany them on an individual basis during the learning process. Our college has got a special profile in social sciences, theatre, and digitally based learning.

We prepare children for the worlds of today and tomorrow, identifying their talents and fulfilling their needs and potential as individuals, but not at the expense of the rights of others. Home and school work together to encourage growth not only in knowledge and skills but in integrity, determination, confidence, independence and consideration for others. School uniform is obligatory.

International-mindedness, tolerance and kindness characterise the togetherness on our campus. Our holistic, humanistic approach—with an element of internationalism—offers an important alternative to the state school system. Our systematic involvement of arts and music contributes to the creativity and spirit that helps to improve all areas of young people’s development at our school.

Our educational concept is based on the fundamental idea of the founder of the school, Hermann Lietz, who propagated learning with the head, the heart and the hands. This holistic learning approach does not only focus on lessons and subjects, but tries to foster students' personality.

The school team is very enthusiastic about aligning with every student's interests, thereby consolidating strengths and overcoming weaknesses and awakening interest in new things. Teachers put great value on enabling students to discover their various talents, whether in theater, music or art and elocution, in competitions and natural history excursions. All disciplines that are offered over and above study lectures have an important impact and all students' interests are supported.

We prepare students for their future life, emphasizing both academic and social skills. Our teaching methods as well as special projects and school programs follow this idea. We want to establish an atmosphere in which all students feel welcome and valuable, experience joy in the learning process and train cooperation and self-responsibility. We encourage our students by our own example to take care of their health, of the environment and of other people. Those values are based on our holistic Christian approach.

The *Hermann-Lietz-Schule Spiekeroog* is a state-recognized high school/ grammar school and boarding school situated on the North Sea island of Spiekeroog. Our holistic school concept is traditionally based upon the classic progressive education, “learning with head, heart and hand”. The conveyance of cognitive skills, the shaping of the students’ personalities and practical every-day work are inseparably connected. It is our aim to prepare children and young adults for a responsible-minded life in our society.

Marienau focuses on the individual. This means small classes, an attractive range of languages and individualized instruction. Students are encouraged to take responsibility for their learning.

Active engagement is at the center of our work. We reach these goals with the use of cooperative learning, portfolio work and successful traditional methods like lecture, discourse and project. The "International Team" is established to meet the needs of international students and serves as an interface between students, parents and the school.

The Christian conception of man is the foundation of our educational ideal. Our students are to learn how to assume a position of responsibility in administration, society, vocation and the church. This aim is to be achieved by means of a holistic education, which is predicated on equal attention paid to the formation of intellectual capacity and the development of feeling and emotion. Today, students from as many as fifteen different countries thus experience the concept of One World at our school.

The Ernst-Kalkuhl-Gymnasium is run by the fifth generation of the family Kalkuhl-Heel, creating a familiar atmosphere in a traditional surrounding.

We see our pedagogical work guided by principles of humanity. Our boarding school trains pupils to be both open-minded and tolerant. Supporting language courses for German as a foreign language do not only ensure academic success but also a quick integration into the school community. In an atmosphere of trust, education goes beyond the acquisition of cognitive skills alone. The varied cultural, sporting and communal activities provide a setting in which pupils get to know themselves and gain confidence in their abilities.

For more than 50 years we offer an extremely wide range of courses and course combinations in school, so that students can choose their favorite and best classes. To enhance their motivation, each student's individual progress is discussed regularly. Due to small classes and individual support in the school and in the boarding school, the learning process is less stressful. The varied activities outside school help students to improve their social competence and try out different sports and activities to find their own individual way.

We are a school with a strong sense of tradition. Values such as loyalty, honesty and tolerance are important for us. This is the school where most of the members of the German resistance were educated who were involved in the plot to assassinate Hitler. We are a popular school with a mixture of day and boarding pupils. We are a Siemens partner school and a candidate Round Square School.

The head of boarding is English and a relaxed but industrious atmosphere permeates the school. Good manners are important and we hold regular dinners and events.
